### DETAILED ACTION

1. This action is response to communications: application filed on 04/11/2001; amendment filed on 04/17/2009. Claims 56-103, 118-129, and 134-137 are pending; claims 1-55, 104-117, 130-133, 138-143 are canceled.

#### **Claim rejections-35 USC § 112, first paragraph**

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

**Claims 56-103, 118-129, and 134-137 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.**

#### **Regarding claim 56:**

The claim(s) contains subject matter (i.e. wherein the received messages further include a third message, wherein said third message includes information corresponding to a second account of said information distribution service, and wherein the second account corresponds to a second user of said information distribution service, wherein the second account has been associated with the first account, and wherein said first account is independent from said second account..... messages including the first, second, and third messages) Those are not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Nowhere in the specification discloses the uses of 'message including the first, second and the third message' and 'the received messages include a third message, wherein said third message

includes information corresponding to a second account of a information distribution service, and wherein the second account corresponds to a second user of said information distribution service, wherein the second account has been associated with the first account, and wherein said first account is independent from said second account.' Without disclosures the uses of those ideas from the specification, how would one of ordinary skill in the art determine claimed subject matter of "wherein the received messages further include a third message, wherein said third message includes information corresponding to a second account of said information distribution service, and wherein the second account corresponds to a second user of said information distribution service, wherein the second account has been associated with the first account, and wherein said first account is independent from said second account; wherein said one or more application servers are configured to store the received message in said memory subsystem including the first, second, and third messages. Appropriate corrections are required.

**Regarding claims 57-103, 118-129, and 134-137:**

Those claims are rejected under rationales of claim 56.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
